NEWARK

CITY DIRECTORY,

FOR THE YEAR ENDING

1869-70

NEWARK, N. J.:

PREFACE.

On presenting this annual volume of Holbrook's City Directory, we congratulate the citizens upon the continued good health, growth and prosperity of the city. It is gratifying to know the city is pushing rapidly onward. Its borders have been extended, and many and great improvements have been made. Extensive manufactories and elegant buildings are being erected in every direction. The new steam and horse railroads in course of construction, and the free public roads as contemplated, will open a large and fine section of surrounding country, and add much to our increasing population, which is estimated at 113,000 (there being 2,000 more names than in last year's issue). In fact, Newark never gave promise of a brighter future than at the present time.

The comfort and convenience of our citizens have received attention by the introduction of a long-needed system of numbering and naming of the streets throughout the city, and which, by the by, had it been sooner accomplished, this book would have made its appearance at an earlier date. Endeavors have been made to overcome the disadvantage thus arising, though it has imposed much extra labor and The new numbers have been adopted in all cases where As a general change in numbers necessarily causes more or less confusion, it is hoped by another year citizens will become accustomed to their new numbers. Should there be errors, the publisher would be glad to learn of them, which his best endeavors have been to guard against. Some persons seem yet to dread taxation, and shun publicity by withholding information. Is it not the duty of every person who enjoys the privileges of a community to help to share its burdens?" Is it not the duty of every citizen, who knows of any such omissions, to bear them in mind and lend their aid in future? friend, in searching for one thus apparently neglected, will wonder there should be any errors, and exclaim, "Why, are not all the names collected?" They forget that reliance must be placed upon information gathered at residences and boarding-houses, from females, and frequently servants, as the lady of the house is "not at home," and sometimes even at places of business, when "we are too busy to attend to such matters." A large portion of the population in manufacturing

places are apt to be migratory, and sometimes purposely so. errors do occur, they are due principally to mis-information derived from those who should be particular in what they impart: a portion only is given, and the remainder left to the surmise of the publisher, necessitating thereby, in many instances, frequent canvassing. bers of the same family will persist in rendering their names with different modes of spelling; hence it is possible the same person may appear in the book more than once. Others, when asked the spelling, exclaim to the canvasser, "You are a Directory man; you ought to know yourself." Many are thoughtful, and take great pains to give proper information. Others send in their names and changes made, to insure correctness; others make changes after giving information to our canvasser, neglect to mention it, and wonder we do not have it. an average, every name in the Directory requires about ten questions to perfect them, so remiss are the people in general. If every citizen would bear these matters in mind and be particular to give attention to our canvasser, it would result, not only in securing a more perfect work, but secure to them the whereabouts of many whom they could not otherwise find.

Much labor has been bestowed upon the Appendix (p. 657), to collect a large and valuable fund of information concerning the various Institutions, Orders, Societies, and other matters of interest connected with the city and vicinity, also those of State and General Government, together with New York hotels, railroads, piers, places of amusement, etc (p 731).

The Business Department is full, and, as usual, shows the interest taken in the work, both as an Advertising medium, and a determination to sustain this Home Institution, for which the publisher returns thanks.

The convenient Map of the City, with its one-quarter mile circles, and other useful information, embracing the various railroads, and routes and distances to every important place in the vicinity, has been prepared with much care and expense, and no careful observer can fail to appreciate it. Extra copies can be obtained at the Directory office, No. 11 Mechanic Street.

STEAM & GAS FITTING,

Dealer in Wrought Iron Pipe, Steam and Gas Fittings, Valves, Water Gauges, Steam Whistles, Steam Boilers, and Coils furnished to order at the shortest notice.

Our system of Steam Heating has been fully tested in this city and adjoining towns, and established its superiority over any other yet introduced, being used by many of our Banking and Insurance Companies, and by many of our citizens in their residences. It is easily managed, and consumes at least fifteen per cent. less fuel than any other heating apparatus.

Trade supplied at the lowest rates.

SURGEON DENTIST

(OLD No. 253),

NEWARK, N. J.

Pure NITROUS OXIDE GAS made FRESH EVERY MORN-ING. This is the ONLY establishment in the City of Newark where the Nitrous Oxide Gas is made fresh every morning. The large quantity of gas administered in my office daily compels me to make it every day, and frequently twice a day. I have used during the past four years on an average,

One Hundred and Fifty Gallons Daily.

I have administered it in this city during that time to

Twenty Thousand Persons,

without an accident. If pure and fresh it is not only harmless, but in the majority of cases delightful. Those who have not tried it can form no idea of how perfectly painless the removal of a number of teeth "while under its influence," can be made. No consideration should induce any one, particularly those in delicate health, to have a number of teeth extracted without taking the gas. In such instances the nervous system frequently receives a shock from which it never recovers. The gas produces a quiet sleep, lasting about one minute, during which time the teeth are easily removed,

Actually Without Pain and no Shock.

The patients instantly recover and declare they have been dreaming.

Patients who are unable through Sickness to visit my office, will be waited upon at their residences.

Artificial Teeth Inserted in the most Skillful Manner.

The amount paid for extracting teeth will be always deducted when Artificial Teeth are inserted.

AMERICAN

MUTUAL INSURANCE COMPANY.

746 (old No. 259) Broad Street, Newark, N. J.

CHARTER PERPETUAL.

Accumulated Cash Assets, January 1, 1869, - - \$705,598.07.

All the profits belong to the Insured.

This Company is entirely Mutual, having no Stockholders to receive a share of the profits—all of which belong to the insured—without liability for assessments to meet losses.

The plan of declaring Scrip Dividends of fifty per cent. since the organization of the Company, to parties insured on the mutual plan for five consecutive years, and a Cash Dividend of eight per cent., beside tax, to Scrip Holders, has secured a uniformity of returns to the insured, and a sufficient surplus to guarantee a continuation of the same in future, and relieve from the fear of cancellation of scrip, to meet losses.

The Directors believing that the condition of the Company would warrant the change, have

RESOLVED, "That to all parties who shall have been insured for three consecutive years, on the mutual plan, prior to January 1st, 1872, a dividend of profits shall be made in Cash, or Scrip, according to the By Laws of the Company."

This Company issues Mutual, Stock, and Perpetual Policies.

POPULATION OF NEWARK.

The following table shows the annual increase of our population from the year 1826—when it was but 8,017—up to the present time. During the Rebellion our numbers materially diminished owing to the scarcity of employment and the large quota contributed to the army. Notwithstanding these serious drawbacks, however, we now rank the Tenth City in the Union, with an estimated population of 113,000.

During the many years that I have received the favor of the citizens of Newark and vicinity, it has been my constant study and purpose to keep fully up with the age in every branch of the business—not only in complete, costly and elegant Hearses, Coaches and Funeral Fittings. but also in all the appropriate solemnities of burial; and in this connection I think I can in perfect fairness, and without egotism, assert that I have been the first in the country to introduce many needed improvements—among them a Hearse expressly for Children.

In the Arrangement and Management of Funerals

I am fully prepared to furnish all that is requisite, while my Stock of
